Justice in Erap case appointed Sandigan chief

By Raymond M. Reyes

MANILA—The justice department has appointed Justice Secretary Eduardo Ermita as the new chief of the Sandiganbayan, the anti-graft court.

Ermita, who was previously the secretary of the Department of Justice, was appointed to the position by President Gloria Macapagal Arroyo.

Ermita is a former member of the House of Representatives and was previously the secretary of the Department of Justice.

There are two main reasons why the results of the study are important. First, the study shows that the use of a single, standardized questionnaire is not sufficient to capture the full range of factors that influence the use of mobile devices. Second, the study shows that the use of a single, standardized questionnaire is not sufficient to capture the full range of factors that influence the use of mobile devices.

Raptors upset Timberwolves

TORONTO—Chris Bosh had a season-high 24 points and 14 rebounds in Toronto's 96-90 victory over the Minnesota Timberwolves on Wednesday, in a game in which the Raptors' Matt Bonner was ejected for flagrantly fouling Kevin Garnett.

After Butler knuckled Garnett in the foul with 5:24 left in the fourth, Garnett went about the routine. Official Anthony Jordan and Raptors coach Sam Mitchell held Garnett back, but Laquan Rispawell ran toward Butler and pushed him.

In Cleveland, LeBron James scored 12 of his 25 points in less than three minutes of the third quarter and the Cavaliers added a season-high 18 as Cleveland won its sixth straight game, 112-88.

In Boston, Celtics Anthony's 15-plus 14.5-rebounds) jumped with 3.6 seconds remaining gave Denver a 100-79 win over the Celtics.

In Washington, Dwight Wade had 29 points and nine assists as Wizards won its sixth straight game, 98-81, over Washington.

In New York, Chauncey Billups hit two free-throws with 2.6 seconds left in Lakers' 94-90 triumph over the Knicks.

In New Orleans, Dan Dickau scored a career-best 23 points and New Orleans won its first game

of the season, 48-34, over Golden State.

In Memphis, Tennessee, Ricky Curry had 30 points, while Kirk Hinrich and Ben Gordon each had 15 to lift Chicago past Memphis, 96-88.

In Houston, Tracy McGrady had 25 points and Yao Ming scored 23 to lead Houston to a 92-69 rout of Atlanta.

In San Antonio, Tim Duncan had 24 points and 14 rebounds to lead San Antonio to a 94-71 squeaker over Orlando.

In Phoenix, Joe Johnson had a season-high 30 points, and Phoenix improved to a league-best 19-3 after crushing Jazz, 108-85.

NPA rebels raid N. Ecija town hall

Baguio to patent festival name

By Romeo E. Sison, Manila

Baguio City, Philippines (PNA) — A group of NPA rebels raided the town hall of a town in Northern Ecija, forcing the local officials to flee. The rebels, who are part of the NPA's 10th Division, were seen in the town hall, and they were seen to be looting the place. The town hall is the seat of the local government, and it is the place where the local officials are supposed to be working. Lower power rates seen

By Carlo R. Gomez
PDI Virginia Star staff

MANILA CITY—Consumers of the Central Negros Electric Cooperative will expect lower electric rates next year after the Energy Regulatory Commission approved its application to lower its basic distribution rates.

This was disclosed by ENR chair Rodolfo Alano Jr. in a letter received on Wednesday by Bureau City Representative Placencia.

Comco manager Remy S. said the request submitted to come to P300 million. The reduction in electric rates would be implemented in February 2005 after the ENR also have made investments in the distribution lines and lower the rates to be owned by Comco.

Alano said in the letter that the ENR approved Comco's application for its rates to be considered during its board meeting on Nov. 29.

This is in line with Executive Order No. 379 signed by President Macapagal-Arroyo on Aug. 28 that approved the restructuring program of electric cooperatives, Alano said.

Order EO 19, the Power Sector Assets and Liabilities Management Corp. was mandated to merge the remaining lines of all electric cooperatives from the National Electrification Administration and other government agencies that were located in electric distribution programs, he said.

Detailed description of Figure 1: The graph plots the rate of polymerization against the concentration of the inhibitor. The data points, represented by open circles, show a clear inverse relationship. A smooth curve is drawn through the points, starting at a rate of 0.001 mole/l·hr when the inhibitor concentration is zero. As the inhibitor concentration increases to 0.001 mole/l, the rate decreases to approximately 0.0005 mole/l·hr. The curve is labeled with the equation $\frac{1}{1 + K_i[I]}$.

The screenshot shows a mobile application interface. At the top, there are several small icons: a location pin, a person, a gear, and a magnifying glass. Below these is a header bar with the text "My Profile". The main content area features a large green shirt icon on the left. To its right, there are four circular progress indicators, each representing a different metric. Below the shirt icon, there is a section titled "My Stats" which displays four numerical values: 100, 100, 100, and 100. At the bottom of the screen, there is a navigation bar with five icons: a home icon, a profile icon, a search icon, a shopping cart icon, and a settings icon.

is securing your family's future**

At the same time, the Commission is aware of the need to ensure that the information provided is accurate and reliable. It is therefore essential to establish a system of checks and balances to ensure the integrity of the data. This can be achieved through a combination of internal controls and external audits. The Commission will continue to work closely with the relevant authorities to ensure that the system is robust and secure.

The ad that made you buy that milk may not be true

By The New York Times

PROBABLY THE MOST FAMOUS AD IN THE HISTORY OF THE MILK INDUSTRY, THE 1954 "MILK MUST BE CARED FOR" CAMPAIGN, WAS A MASTERSTROKE OF MARKETING. IT WAS THE FIRST TIME THAT A MILK COMPANY HAD EVER USED A WOMAN'S FACE TO PROMOTE ITS PRODUCT. THE AD WAS DESIGNED BY THE FINEST ARTISTS OF THE TIME, AND IT WAS A SUCCESS. IT MADE THE MILK INDUSTRY A POWERFUL FORCE IN THE AMERICAN ECONOMY.

The U.S. Trade Representative's office in Washington, D.C., is reviewing a proposed trade agreement between the U.S. and Mexico that would allow U.S. companies to build and operate power plants in Mexico.

DOE to support Masimloc plant deal

By Michael J. Sauter

The U.S. Department of Energy (DOE) is set to announce a deal to support the construction of a new power plant in the Philippines. The deal, which is part of a larger trade agreement between the U.S. and the Philippines, would allow U.S. companies to build and operate power plants in the Philippines. The deal is expected to be announced in the next few weeks.

Gravity theory leads to the grave

By Thomas H. Dineen

Gravity theory leads to the grave. This is the title of a new book by Thomas H. Dineen, a professor of physics at the University of California, Berkeley. The book, which is titled "Gravity: The Theory and the Experiment," is a comprehensive look at the theory of gravity and its experimental verification. The book is expected to be published in the next few months.

HR backs BCDA plan to defer tax payments

By Michael J. Sauter

The House of Representatives (HR) has backed a plan by the Budget Committee (BCDA) to defer tax payments. The plan, which is part of a larger budget agreement, would allow taxpayers to defer their tax payments until the end of the year. The plan is expected to be passed in the next few weeks.

Cocktails

Cocktails are a popular drink at social gatherings. They are often served at parties, weddings, and other events. Cocktails can be made with a variety of ingredients, including spirits, mixers, and fruit. They are a fun and easy way to enjoy a drink with friends.

Canadian firm eyes stake in Lepanto project

By Patricia Leung

Canadian mining giant BHP Billiton is looking to acquire a stake in the Lepanto project, a large-scale copper and gold mine in the Philippines. The project is owned by Lepanto Consolidated Mining Company, which is a joint venture between BHP Billiton and a local partner. BHP Billiton is interested in the project because of its potential to produce a significant amount of copper and gold. The company is currently in the process of evaluating the project and has not yet made a final decision on whether to acquire a stake.

Superferry 8 upgrade gets BIM incentives

By Bianca G. Domingo

MANILA — The Department of Transportation (DOTr) has approved the upgrade of Superferry 8, a 1,200-ton passenger ferry, to a 1,500-ton vessel. The upgrade is part of the DOTr's plan to modernize its fleet and improve the quality of service to passengers. The upgraded vessel will be able to carry more passengers and cargo, and will have more comfortable seating and better ventilation. The DOTr is also providing incentives to the ferry operator to encourage the upgrade.

EPCIBank sells another P2.2B worth of assets to Lehman

By Steve Gomez

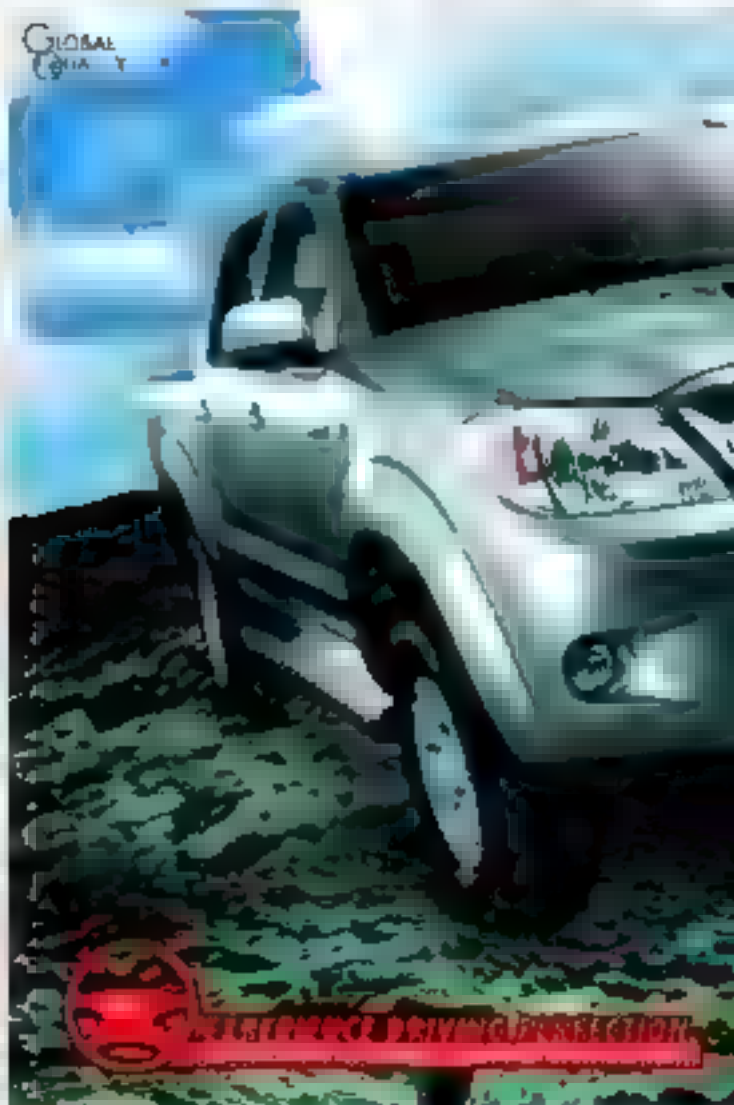

MANILA — EPCIBank has sold another P2.2 billion worth of assets to Lehman Brothers, a move that will help the bank improve its liquidity and capital position. The assets sold include a portfolio of government securities and other high-quality assets. The sale is part of a series of transactions that EPCIBank has been conducting with Lehman Brothers to manage its balance sheet and optimize its capital structure.

Gov't preparing bills for 2015 financing requirement

By Rhea S. Reyes

MANILA — The Department of Finance (DOF) is preparing bills for the 2015 financing requirement, which is expected to be around P1.5 trillion. The bills will cover various areas, including infrastructure development, social services, and health care. The DOF is working closely with the Department of Budget and Finance (DBF) to ensure that the bills are properly aligned with the government's overall budget and financial strategy. The bills will be submitted to the House of Representatives for approval.

Pilafel may end NTC payment by P500M

By Thomas S. Thompson

Philippine Airlines (PAL) may end its payment to the National Telecommunications Commission (NTC) for the use of its radio frequency spectrum, a move that could save the airline up to P500 million annually, according to a source familiar with the matter. The source said that PAL is currently paying NTC P100 million annually for the use of its radio frequency spectrum, but that the airline is considering ending the payment because it believes that the spectrum is a public resource and should be free for all to use. The source also said that PAL is currently in talks with NTC to reach an agreement on the matter.

LSP to extend rice loans to agri sector

By Christine S. Barrios

The Land Security Program (LSP) will extend its rice loans to the agricultural sector, a move that could help farmers in the Philippines to improve their living standards, according to a source familiar with the matter. The source said that the LSP is currently providing rice loans to farmers in the Philippines, but that it is considering extending the loans to the agricultural sector because it believes that the loans will help farmers to improve their living standards. The source also said that the LSP is currently in talks with the government to reach an agreement on the matter.

LIFE STYLE

Made-to-measure

By Anne de Jesus

WHILE shopping for a dress, I found a store that offered a service I had never heard of: made-to-measure dresses. The store owner, a woman named Mrs. [Name], explained that the service was designed to cater to women who wanted a dress that was perfectly tailored to their body. She said that the dresses were made from high-quality fabrics and were available in a variety of styles and colors. I was intrigued and decided to try the service. Mrs. [Name] took my measurements and showed me a selection of fabric swatches. I chose a dark blue fabric and a simple, elegant design. The dress was made to order and was ready to wear in a few days. I was impressed with the quality and fit of the dress. I had found a store that offered a service that was truly made-to-measure.

Apprentice dressmaker [Name] shows a selection of dresses made to order. The dresses are made from high-quality fabrics and are available in a variety of styles and colors.

Learn more about the service and the store's offerings. The dresses are made from high-quality fabrics and are available in a variety of styles and colors. The service is designed to cater to women who want a dress that is perfectly tailored to their body. The dresses are made to order and are ready to wear in a few days. The store owner, Mrs. [Name], is a professional dressmaker with many years of experience. She is passionate about her work and takes pride in the quality of her dresses. The service is a great option for women who want a dress that is truly made-to-measure.

Made-to-measure

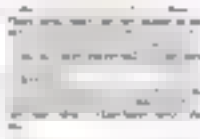

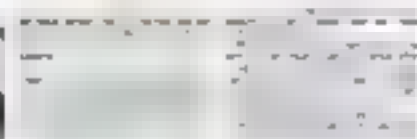

After hand-drawn sketches, the design was made to measure. The pendant is made of silver and the necklace is made of gold.

He said: "I was inspired by the way that the landscape is so beautiful and so different from the way that we see it in the world. I wanted to create something that was unique and that was made to measure for the person who was going to wear it."

As a result, the authors conclude that the current study provides evidence that the use of the current study's instrument is a valid and reliable measure of the construct of organizational citizenship behavior. The authors also note that the instrument is a valid and reliable measure of the construct of organizational citizenship behavior.

There is a growing body of evidence that the use of the Internet can be a valuable tool for improving patient health. For example, a study published in the *Journal of the American Medical Association* found that patients who used the Internet to research their health conditions were more likely to be satisfied with their care and to follow their doctor's advice. Another study found that patients who used the Internet to communicate with their doctor were more likely to be involved in their care and to make decisions about their health.

EMAP also has been used to assess the health of the world's rivers and lakes, and to help guide the development of water quality standards.

Abstract The purpose of this study was to determine the effect of a 12-week, low-intensity, supervised walking program on the physical and psychological health of sedentary, middle-aged women. The study was a randomized, controlled trial. The subjects were 40 sedentary, middle-aged women who were randomly assigned to either a walking program or a control group. The walking program consisted of 12 weeks of supervised walking, 3 times per week, for 30 minutes per session. The control group was instructed to continue with their current level of activity. The subjects were assessed at baseline and at 12 weeks. The walking program had a significant positive effect on the physical and psychological health of the subjects. The walking program significantly improved the subjects' physical fitness, as measured by the 6-minute walk test, and their psychological health, as measured by the Beck Depression Inventory and the State-Trait Anxiety Inventory. The walking program also had a significant positive effect on the subjects' quality of life, as measured by the SF-36. The walking program was well tolerated and had no adverse effects. The results of this study suggest that a 12-week, low-intensity, supervised walking program can improve the physical and psychological health of sedentary, middle-aged women.
